

Curso: **Técnicas de escritura científica en inglés**

Fechas: 15-18 de marzo

Profesor: Simon Bartlett

PROGRAMA:

Día y mes	Horario	Contenido
15 de marzo de 2021	15-18h	Events, action and agency: How do we identify and convey the essential message of a sentence?
16 de marzo de 2021	15-18h	Character: Choosing how to begin a sentence; why it matters and what criteria we need to apply. Interruptions, separations and clutter: Some common problems that arise in the internal structure of sentences and how to avoid them.
17 de marzo de 2021	15-18h	Beyond the sentence: beginnings: How to ensure a fluid link at the start of a sentence from the preceding material. The difference between subject and topic. Different kinds of linker structure and how to use them. Beyond the sentence: endings: What do we remember about a sentence? Points of emphasis, and how they are signalled with punctuation and specific clause patterns
18 de marzo de 2021	15-18h	Writing for cohesion: Applying the ideas explored to the analysis and revision of example texts from research articles. Stylistic requirements for different research article sections.
