

BÚSQUEDA DE SOCIOS “EATRIS”. EUROPEAN INFRASTRUCTURE FOR TRANSLATIONAL MEDICINE (EATRIS)

El consorcio EATRIS (EUROPEAN INFRASTRUCTURE FOR TRANSLATIONAL MEDICINE), compuesto por grupos académicos e instituciones europeas entre las que se encuentra IdiPAZ, pone a disposición de los investigadores las siguientes oportunidades de partenariado:

- **Diagnostic SME (France)**

Seeking access to large cohorts of patients treated with immunotherapy (immune checkpoint inhibitors in particular: anti-CTLA4, anti-PD1, anti-PDL1) in solid tumors (metastatic Melanoma, Renal Cell Carcinoma, Lung Cancer, Breast Cancer, Colorectal Cancer), in order to study correlation between immune competence and response. Access to the patient clinical data (clinical benefit, survival etc.) necessary.

- **Vaccine SME (France)**

A development-stage vaccines SME is looking for partners who have candidates and know-how around antigens with a lack of immunogenicity, for a development collaboration on the basis of their immuno-enhancing antigen re-engineering platform.

- **Medium size pharma (Japan)**

Company is looking to enhancing its research and development pipeline, exploring opportunities for strategic in-licensing of new targets in the fields of glucose and lipid metabolism, virus research, immune disorders and inflammation.

Tramitación:

Si tiene interés en alguna de estas colaboraciones por favor contacte con la Secretaría Técnica de IdiPAZ.

Fecha límite de tramitación: Plazo interno IdiPAZ: 5 de septiembre de 2014.
